I wanted to take a minute to express my gratitude to you and your team for all your hard work with the development of the Old Second Performance Appraisal System (PAS).

The PAS that was developed for us is wonderfully simple, yet a very powerful approach on how to best present the performance evaluation of our staff. I cannot say enough how much I appreciate the efforts of you and your staff for meeting essentially every requirement and need that was requested by Old Second during the development of this system.

Additionally since implementation of the system into our environment, your staff continues to meet and exceed our expectations for the routine system maintenance that we have requested.

Saigun Technologies has been a wonderful in all aspects of this project and has proven to be the right choice for Old Second Bank.

Best Regards,
