

## Press Release

# Gulf Housing Solutions United Arab Emirates Embraces EmpXtrack as Human Resource Software Solution

**March 16, 2009. NOIDA (India)**

Saigun Technologies announced today that Gulf Housing Solutions, an organization which acquires, develops and manages superior staff accommodation in the United Arab Emirates, has chosen [EmpXtrack - On-Demand Human Capital & Talent Management Software](#) for managing its Employee Database, extend superior Self Service to employees and manage its Payroll.

Gulf Housing Solutions has opted for [EmpXtrack Starter Edition](#) which is most suitable software for the companies that want to improve their HR Management using web-based tools. It will empower Gulf Housing Solutions HR department to manage the employee data through software and enable employees to use HR services like leave, complaints and request, expenses through electronic forms. [EmpXtrack Payroll](#) will help Gulf Housing Solutions HR Managers to automate the payroll process.

Speaking on the occasion, **President of Saigun Technologies, Tushar Bhatia** said "It is an honour to be associated with a prestigious firm like Gulf Housing Solutions in United Arab Emirates. The addition of Gulf Housing Solutions in our customers list is yet another indication of the growing demand of EmpXtrack Human Resource Software in EMEA (Europe, Middle East and Africa) region."

When asked about the demand of HR Software in recession he said, "Recession period requires better management of resources to survive and grow. Thus most companies are looking for solutions that can help them measure and improve their productivity and also optimize their work force. This need can only be met by Human Resources softwares like [EmpXtrack](#). Our sales and marketing department are getting about two to three times requests for demo and consultation as compared to good times. While Performance Management Software was considered a luxury during good times, during recession it is a bare necessity."

### **About Gulf Housing Solutions**
