

## Press Release

# Jesus House, DC, an International Church, uses EmpXtrack for Performance Evaluation of Church Staff/ Volunteers

**August 31, 2009. NOIDA (India)**

**Saigun Technologies** announced that Jesus House, DC, an International Church, is using its flagship product [EmpXtrack Performance Management System](#) for evaluating performance of its volunteers and staff. EmpXtrack Performance Management System will help Jesus House to conduct annual appraisals to know how well its volunteers and staff understand and meets its vision, mission and core values.

**Jesus House, DC** is a dynamic non-denominational, international church where praise is exuberant, prayer is steadfast, and the preaching is practical. Jesus House visions to to restore hope and maximize the potential in you. It has a mission to spread God's unconditional love which is available to the world through His Son Jesus Christ, to prepare people from all nations for Christ's return and to equip believers in Christ to live abundantly and pleasing to God.

**Pastor Chinyere Olujide, Ministry Operations Coordinator, Jesus House DC** said, "We had been searching for a good tool to carry out the performance evaluations for our volunteers and staff, and had almost given up hope, as our budget for it was not high enough to afford most industry standard appraisal tools being that we are a Church. We were so pleased to have discovered the EmpXtrack performance evaluation application for it not only fit our budget but they were also able to configure the application to meet our Church's unique specifications and process flow. The team at Saigun Technologies, were also very helpful and responsive to our needs"

Jesus House website: <http://www.jesushousedc.org/>

**Tushar Bhatia, President of Saigun Technologies** said, "It is an honor for EmpXtrack team to assist Jesus House in performance evaluation of its volunteers and staff. Saigun's team is always happy to serve the communities we work with to meet their specific needs."
