

Press Release

Tushar Bhatia, Chief architect of EmpXtrack is visiting United States to discuss benefits of integrated HR System

April 15, 2010. NOIDA (India)

Saigun technologies announced that its President and chief architect of EmpXtrack, will be visiting United states between 5th and 12th May 2010. **He will share the benefits of a paperless Human Resource program for high growth companies and present EmpXtrack Solution.**

Tushar will share his insights into the benefits of automating Employee Performance Management which includes Appraisals, Compensation planning, Training Management and Goal Setting which holds immense importance and are backbone of the Human Resource departments.

In addition he will share how Variable Incentive Plans can act as a Motivation and Retention Tool. The visit of Tushar to many locations in the US is the result of several en-queries by organizations to Saigun for optimizing their performance management Process using EmpXtrack.

Within a short span of time, **EmpXtrack** has established itself within the ranks of comprehensive Human Resources Management Softwares with features comparable to SAP HCM, Oracle HCM and PeopleSoft HRMS. With its SaaS based user friendly interface, EmpXtrack is the preferred choice of customers looking for an affordable HR solution. EmpXtrack HCM solution has been recommended by CNN Money, Dare and many other leading Technology Analysts.

Organization which are interested in automation of their HR System can contact EmpXtrack sales team at marketing@empxtrack.com or call +1 888 840 2682 from USA / Other countries. One of our representatives will help arrange a meeting with Tushar.

About Saigun Technologies and EmpXtrack

Saigun has created an impressive impact in the US with a rapidly increasing client base. EmpXtrack is an integrated enterprise level solution, that facilitates all the critical functions of the HR department of a company. Depending on the requirement, EmpXtrack is offered as a suite and as an individual module. **EmpXtrack is the sole web-based product, that sees Human Resources as a vertical and offers a viable solution to deal with various areas of human resource management and development on a common footage.** Any sort of change in one module automatically affects the other and this results in optimum results and achievements. Not only this, EmpXtrack is quite modular by helping users to select a module of their choice in the beginning, but also help them opt for other modules as and when organizational needs arises.
