

Press Release

The University of Botswana, Africa selects EmpXtrack Performance Management System

July 24, 2009. NOIDA (India)

Saigun technologies announced that The University of Botswana, a leading academic centre of excellence in Africa and the world has selected EmpXtrack Performance Management System for employee goal setting and employee performance appraisals.

The University of Botswana wants to enhance the teaching, learning and research environment through the provision of a proactive style of leadership and management and efficient, effective and quality driven institutional support services. A performance management system will help the university management to effectively manage and improve the performance of its staff.

Within a short span of time, **EmpXtrack** has established itself within the ranks of comprehensive Human Resources Management Softwares with features comparable to SAP HCM, Oracle HCM and PeopleSoft HRMS. With its SaaS base and user friendly interface, EmpXtrack is the preferred choice of customers looking for an affordable HR solution. EmpXtrack HCM solution has been recommended by CNN Money, Dare and many other Technology Analysts.

EmpXtrack Performance Management System is an integrated web-based tool to improve organizational performance by setting SMART Goals for employee, evaluating employee performance, recommending highly competitive compensation plans, managing employee trainings & development and promoting right employees to critical positions.

About University of Botswana

The Mission of the University of Botswana is to improve economic and social conditions for the Nation while advancing itself as a distinctively African university with a regional and international outlook.
